Company overview

Ward8Digital LLC is an AI-native DevSecOps and cloud consulting firm. As a member of Anthropic's Claude Partner Network and a Wiz Services Partner, we deploy Claude in production for federal agencies, financial institutions, and healthcare systems: agentic workflows, MCP integrations, Claude Code pipelines, and the security and governance layer that turns pilots into accredited, auditable systems under FedRAMP, CMMC, HIPAA, or SOC 2.

Core competencies

- **Agentic systems design & delivery.** Multi-agent workflows on the Claude Agent SDK with evaluator loops, approval gates, and audit logging.
- **Claude Code enterprise integration.** Org-wide standards, hooks, and headless CI in GitHub Actions, GitLab CI, and Jenkins.
- **MCP server design.** Least-privilege connections from Claude to systems of record, including ServiceNow, SharePoint, databases, and GovCloud services.
- **AI and cloud security with Wiz.** AI agent and MCP discovery, attack-path analysis, and runtime protection with Wiz Code, Cloud, and Defend.
- **DevSecOps and multi-cloud.** Kubernetes, Terraform, and CI/CD across AWS, Azure, Google Cloud, and Oracle Cloud.
- **Workforce training.** Claude certification preparation and Forward-Deployed Engineer readiness for staff, contractors, and client teams.

Past performance

U.S. Census Bureau (data.census.gov) — **Aug 2018 – 2020**

Subcontractor · Labor-hour · GSA Schedule GS06F1080Z · Task Order 1333LB18F0000-0112

Supported deployment of a new application to production and provided 24/7 production support for data.census.gov, working with the prime contractor's team.

U.S. Citizenship and Immigration Services (DHS) — **Apr 2012 – 2018**

Subcontractor · Electronic Immigration System (ELIS) · Task Orders HSSCCG-12-J-00059 and HSSCCG-15-J-00134

Supported the ELIS application: AWS deployment, code and security reviews, database latency reduction, and production debugging workflows that cut time-to-debug by 50%.
